Sir,

Address presented to the Minister for Revenue by the Banavar Minor Municipal Council during his visit on 28th March 1946

--

With reference to your letter No L 10519 dated 8-4-1946 on the above subject, I have the honour to state that it is reported by the Sanitary Engineer, Bangalore that he inspected Banavar Town on 23-4-1946 and the wells in the town have water due to the recent showers and there was no difficulty for water in the place

It is however reported that there are only half a dozen wells in the town most of which yield brackish water and hence sweet water has to be carried from one or two wells on the outskirts of the town The Deputy Commissioner is stated to have been addressed by the Sanitary Engineer regarding the sinking of the four additional draw wells required by the residents in order to create facilities

As a stand-bye measure, it is suggested to have a bore-well in the central place of the town and fitted with a hand pump to serve the town normally and also during the emergencies when ordinary wells get dried up

Re Sinking 4 additional wells in Banavara Municipality

"R"

In continuation of this office letter No Ml C 2949/45-46 dated 26-12-47, re the sinking of 4 wells in Banawar Municipality I have the honour to forward herewith 4 estimates for sinking four wells received from the Executive Engineer, Hassan, after scrutiny Each well costs R 1320/- The Municipal Council of Banawar have passed a resolution at their meeting held on 25-2-48 pleading their inability to contribute any amount towards the cost of these wells on account of their low finances The annual income of this minor Municipality, is about R 9,000/- and the expenditure is almost equal and the balance remaining if an, will be very little This Municipality is therefore in need of Government aid for providing water supply to the public and they are not able to provide any amount for this purpose

In the above circumstances, I request that sanction of Government may kindly be obtained to the estimates for sinking at least two wells for the present at a total cost of Rs 2643/- with full grant from Government 2640

Copy of the resolution and estimates are enclosed
